

HunterLab's EasyMatch QC software has a EULA (End User License Agreement) that describes the purchaser's rights to use the software.

There is another EULA for the Sentinel driver installed with EZMQC and used with the hardware key that must be present on the computer for EasyMatch QC to open.

Both can be found at <https://www.dropbox.com/sh/f8ezueu7lz3fhyz/AAAmnpBXufxM7syznQtI9F-va?oref=e>
