

To support the new Microsoft Windows 10 operating system, no major code modifications were necessary for full feature functionality within our current released EasyMatch QC or EasyMatch QC-ER version 4.84 software programs.

The only necessary changes have been to the Diagnostic PDF reports and Pre-Installation Wizard reports which have been modified to detect the new Windows 10 operating system correctly.

Our soon-to-be released EasyMatch QC+ER version 4.85 will be compatible with the Windows 10 operating system in all aspects.

In summary:

- EasyMatch QC+ER were developed originally under Windows XP system and all versions of EasyMatch QC+ER > 3.0 (our first release) will work with the Microsoft Windows XP operating system.
- All EasyMatch QC+ER versions 4.30 and higher are compatible of Windows 7, 8, 8.1 and previous operating systems.
- All EasyMatch QC+ER versions 4.85 and higher will be compatible with the Windows 10 and previous operating systems.

To determine your install eversion of EasyMatch QC or QC-ER, go to Help/About where it will be listed.
