

- Turntable
 - Complete rotation every 5 seconds (12 rpm)
 - Automatic Start/Stop rotation for each scan, with motion disable switch for stationary measurements
 - Sealed transport mechanism
 - Hand disassembly for easy cleanup of spills
 - Direct drive motor for samples weighing up to 20 lbs
 - USB port for connection to a Printer, Barcode Scanner. Compatible with EasyMatch QC 4.8 and above on Windows based PC
 - A/C power switch with detachable International Power cord (IEEC)
 - Hardened powder-coated aluminum chassis for stability and durability

- Adjustable Support Arms
 - Height Adjustment to accommodate samples from 2.5 to 5.5 inches from the sensor window
 - Width Adjustment for a range of sample dish sizes from 2" to 12 "
 - Ribbed aluminum frame with adjustable stops
 - Available with optional Fixed Mount

- Sample Dishes
 - Includes 6 & 12 inch sample dish
 - Can be nested to use maximum scan area with minimal sample
 - Heavy Gauge Aluminum for durable use and easy cleaning

- Sensor
 - Sealed aluminum case
 - Sealed Optics to protect sensor in dusty environments
 - Laser Distance Sensor - Product Height or Distance from Sensor data to ensure correct sample presentation
 - LED Light source is bright and reliable (5 yr warranty)
 - 250 Stored Standards with Password Protection
 - Datalog holds previous 1000 color data measurements for onscreen review or digital download
 - Keypad and display for standardization, color measurements, and system diagnostics
 - Powerful color Calculator for a variety of color scales, indices, and illuminants

- Utility Software
 - Retrieve sample measurement datalog
 - Backup storage and retrieval of Product Standards
 - Product Standards editing capability
- Compatible with EasyMatch QC 4.8 and above
