# Information on the About screen of EasyMatch QC+ER

At version 4.81, the EasyMatch QC Help/About screen was updated to list:

- The name of the installed software for client reference.
- Our HunterLab symbol; plus short form and long form names by which our company is known.
- A clear statement of our address and where we can be found.
- The name and version numbers of the installed software and all major modules. This includes CMRs (Customer Modifications Requests), if present.
- Live links to the HunterLab and HunterLab/Support web sites.
- A clear copyright statement for our product.
- How to use our self-help Knowledge Library at support.hunterlab.com.

This is generally uniform across HunterLab products, including EasyMatch QC-ER.
